Computer Science

University of Namur

2020-2021

Stopped after one year because it was not the future I was looking for

HARD SKILLS

Html/css/Js/scss

Adobe Xd / Figma

Photoshop/ Illustrator

SOFT SKILLS

Organized

Team player

Leadership

LANGUAGES

English

French

PROFILE

I was born in England but moved to Belgium later on in my life, that's why I'm both fluent in English and French. I'm of a new generation of web designers with a lot of ideas and a lot of hope for the future of this job. I'm looking to apply and further develop my skills gained through my Degree and learn new skills. I have amazing teamwork and also can take perfectly the lead when needed.

EDUCATION EXPERIENCE

Student

Albert Jaquard University College

2021-Summer 2024

Throughout my academic years, I have consistently ranked among the top students in my English classes and have often assisted my teachers. I have undertaken various web and UX projects, refining my work style and organizational skills while acquiring a diverse range of coding skills.

Throughout the year, I have sought constant improvement and given my best to learn, whether in class or outside. Each project has its own unique essence infused with my touch, and each project presents its unique features, showcasing my improvement over time in each of them.

For my final year project in the 2nd year, I focused my research on color blindness and interviewed individuals with this condition, discovering the multiple challenges they face in their daily lives. This inspired me to create an application that helps color-blind individuals match clothing colors when shopping. As a team member, I have always taken on a leadership role in group projects, seeking to ensure success while supporting my teammates.

WORK EXPERIENCE

Student Job

PARTENAMUT

Summer 2018 and Winter 2020

- Learned the life in the office
- Working has a team
- Refined my excel spreadsheet
- Organizing
